Sub: Appointment on compassionate grounds – justification  
for appointment in ministerial cadre.

For making appointment on compassionate grounds in ministerial category, approval of General Manager is required. It has been observed that cases are referred by Divisions/Workshops to HQ in a routine fashion without sufficient justification. Without adequate data/ justification, it becomes difficult to put up the proposal to the General Manager for obtaining his approval.

You are advised that in all those cases where a candidate is being recommended for CG Appointment in ministerial category, sufficient justification should be furnished highlighting the educational background, professional qualification and performance in the suitability test for CGA, if any. This justification/proposal should have the approval of DRM/CWM and he/she has to write personally why CGA in ministerial cadre is being recommended. Incidentally, it is pointed out that only such cases should be recommended for ministerial category where educational/professional background adequately justify consideration for appointment on ministerial cadre.
